I'm open this weekend if we want to pull together a conversation. If I don't catch the email invite – please just text  Happy to do~~

I didn't get into link but if we didn't get live files, is that something we need for LBG to make revisions?

See below for link to FS. They clearly did not follow our instructions and continue to add groundwater alternative 5 among other issues. I can review sometime this weekend. I am not sure what to do about the tables and figures.
